## Education

---

### Institute Of Advanced Research (IAR)

Bachelor of Engineering (B.E.) Computer Engineering

GPA: [8.5]

Gandhinagar

2023-27

## Experience

---

Fresher

## Projects

---

### Smart Curriculum Activity & Attendance App

(August -December 2025)

- **Description:** A mobile and web-based platform integrating geofencing, geotagging, facial recognition, and AI-driven recommendations to automate student attendance and suggest personalized curriculum activities.
- **Role:** Developed core features like facial recognition, geofencing-based attendance, and AI recommendation engine; collaborated on UI design and database optimization.
- **Technologies Used:** React Native, Django, TensorFlow, OpenCV, MySQL (Mobile App); MERN Stack (Web App).

### FakeChain

(October 25 - January 26)

- **Description:** Detecting fake degrees and certificates using Smart Contracts(Blockchain)
- **Role:** Frontend, backend, Database. Knew more about blockchain in detail and learnt so many things from this project.
- **Technologies Used:** MERN stack, Python.

## Certification

---

### Complete Web Dev Course

(September 2025 )

- **Description:** In this course, I learnt about full stack techs, frameworks and made 4 full stack projects.
- **Technologies Used:** MERN stack

## Additional

---

**Technical Skills:** JavaScript, Python, Node Js, React Js, Express, MongoDB, Django, Mysql, Git, GitHub, C, C++,

**Academic Achievements :** Won a hackathon, went for many events of clubs and won some of them and scored 8.5 CGPA(3rd year running).

**Volunteer Experience:** Volunteered in many events of CSGC, Entrepreneur club such as hackathons, gaming tournaments, quizzes, etc.
